SKU: **BAC-F2DF**

DRYWALL INLAY ACCESS PANEL

WITH DRYWALL FLANGE - DETACHABLE

DESCRIPTION

The access panel consists of a welded aluminum frame and is available with 5/8" (15.9 mm) inlaid drywall and two latches.

Both an outer and an inner frame assembly consists of high grade aluminum which is bonded with a special welding process. For sizes 12" x 12" (305 mm x 305 mm) and up the access panels are equipped with a safety-system to prevent accidental opening. This safety system must be reattached if the hatch is removed.

The reveal of 1/16 of an inch (1.59 mm) is visible between the outer frame and door hatch. The concealed snap locks open the access panel when pressure is applied to the spring loaded latch side.

ADVANTAGE

- Superior engineering & innovative design
- Fast delivery
- Quick and easy installation
- Solid aluminum frame
- Flush installation in walls
- Available in moisture / mildew resistant green board and cement board

OPTIONS

- Screwdriver operated cam latch
- Screwdriver operated four-square cam latch
- Round Cylinder Lock with Key
- Mortise Cylinder Lock Preparation
