

Quality Access Doors- FAST!

DESCRIPTION

Stealth Ceiling/Drop-in Access Panels are designed to be an attractive alternative to typical access panels in commercial and residential buildings. Their glass-reinforced-gypsum (GRG) based construction can't rust and blends seamlessly with new or retrofitted drywall ceilings and walls. It's Clean, Simple and Hidden. The design of the stealth access panel ensures that your aesthetic style is noticed and not your access panels.

The panels consist of a surround frame with pre-drilled/spotted fastener holes and a drop-in door (for ceiling access) or a hinged door with a latching mechanism (for wall applications).

SPECIFICATION

MATERIAL: Glass fiber reinforced gypsum

SHELL THICKNESS: 5/8" lightweight gypsum

EDGE THICKNESS: The panel has an edge thickness to accommodate 5/8" drywall

FINISH: White

FEATURES

- Tempered Edge Frame
- Easily Textured & Paintable
- Lightweight
- Blends with Surrounding Drywall
- No Shrinkage
- No Cracking After Install
- New Construction or Retrofit Jobs
- Reduces Labor Costs
