SKU: **BAC-GRGH**

STEALTH HINGED ACCESS PANEL WITH KEY - LATCH

DESCRIPTION

Stealth Hinged Access Panels with Key-Latch are designed to be an attractive alternative to typical access panels in commercial and residential buildings.

Their glass-reinforced-gypsum (GRG) based construction can't rust and blends seamlessly with new or retrofitted drywall ceilings and walls. The design of the stealth access panel ensures that your aesthetic style is noticed and not your access panels.

The panels consist of a surround frame with pre-drilled/spotted fastener holes and a drop-in door (for ceiling access) or a hinged door with a latching mechanism (for wall applications).

SPECIFICATION

MATERIAL: Glass fiber reinforced gypsum

SHELL THICKNESS: 5/8" lightweight gypsum

EDGE THICKNESS: The panel has an edge thickness to accommodate 5/8" drywall

FINISH: White

FEATURES

- Tempered Edge Frame
- Easily Textured & Paintable
- Lightweight
- Blends into Surrounding Drywall
- No Shrinking or Cracking
- Concealed hinge
- Single trade installation
- Pre-spotted fastener holes
- Reduces Labor Costs
- Flush cam lock with lock cover
