

SPECIFICATION

BENEFITS:

- The Upright Safety Bar is designed to assist in the safe passage when exiting and entering the roof hatch. A heavy-duty, hinged steel mechanism allows the upward and downward movement of the bright yellow safety bar.

- No need to attach bar to center of ladder rungs. Upright Safety Bar has been designed to provide the safest way to exit and enter a roof hatch without restricting the opening or footing on the top rungs of the ladder.

QUALITY DESIGN & CONSTRUCTION:

- Simple and safe lift-and-lock into place movement
- Side location for safer and more convenient passage
- Automatically locks when fully extended
- Shipped as a separate unit. Also, available assembled to roof hatch
- Designed for hatches 4-foot and smaller on the ladder side
- Designed to provide approximately 42" height above ladder

SKU: **BAC-USB**
